

Lista Shelf Converter® System

TRANSFORM NEW OR EXISTING SHELVING INTO
A HIGH-DENSITY STORAGE SOLUTION

Unique frame system mounts easily to shelving uprights and guarantees smooth drawer functioning

Shelf Converter drawers extend fully for easy access to the furthest corners

Drawers are recessed to prevent clothing from snagging

Small items stored in drawers are easier to locate, easier to pick, and easier to inventory

Store bulky items on your existing shelves

Drawers can be labeled with our unique hinged handle covers and Lista Script software

Drawers have a weight capacity of 440 lbs. each

Roll-out tray allows easy access to large, heavy items

Increase storage capacity by as much as 50% or more by storing smaller items in Shelf Converter system drawers. Or use your space savings to reclaim needed floor space.

Stop storing air!

- Replace inefficient shelving as your only storage solution
- Increase storage capacity by as much as 50% or more!
- Improve retrieval time of key parts
- Upgrade to a high-density storage solution for a fraction of the cost of replacing your existing shelving!

Shelf Converter® System Features

With traditional shelf storage (left side), you end up storing a lot of air! Smaller items make poor use of cubic space when stored on shelves, and are difficult to locate and keep track of. With the Lista Shelf Converter® System (right side), you can store small-to-medium sized items in high-density drawers and larger items on shelves, where they belong.

Key features

- **High density:** With Lista drawers, you use the full cubic capacity of your storage space.
- **Right-sized storage:** Store small-to-medium sized items in drawers, larger bulkier items on existing shelves.
- **Drawer subdividing system:** Lista's extensive selection of drawer partitioning accessories allows you to create compartments that exactly fit what you're storing.
- **440 lb. full-extension drawers:** Lista drawers stand up to the challenge of even the heaviest storage needs,* holding up to 440 lbs. (200kg) per drawer, even when fully extended.

**Do not exceed the maximum storage capacity of your shelving. If total drawer loads for a Shelf Converter unit will exceed an individual shelf's maximum storage capacity according to the manufacturer's specifications, Lista recommends using two or more smaller units instead of one larger unit (for example, two 600-height units rather than one 1200-height unit), with a shelf beneath each unit.*

- **Easy installation:** Just attach our unique frame system to your shelving uprights, insert drawer tracks and pop in the drawers. Unlike typical free-standing attachment brackets, our full frames ensure stability and smooth functioning for all drawers.
- **Expandability:** As your storage needs change, the Shelf Converter System can be removed and re-installed, or added to.
- **Drawer labeling system:** Using our unique hinged drawer handles and free Lista Script software, you always know where everything is.
- **The perfect solution for retrofitting into existing industrial shelving:** Fits a number of standard shelving brands, including Metalware, Penco Clipper, Rousseau Spider, Tensco Q-Line and Western Pacific Deluxe. Can be used with 36" x 24", 42" x 24" and 48" x 24" shelves.
- **Choice of sizes.** Shelf Converter units available in 4 heights, 3 widths. Drawers are available in 5 heights.
- **Ideal for a number of industries and uses:** The perfect solution in a wide range of manufacturing settings, maintenance and repair operations and parts cribs, as well as a lower-cost retrofit for automotive parts departments.

Compare the disorganized, inefficient storage in this auto dealership parts department (left) with organized storage using the Lista Shelf Converter® system of shelving drawer inserts (right).

NOTE: Lista does not recommend installing a Shelf Converter unit in a stand-alone shelving section.

Easy to order, easy to install

We've made it as easy to order a Shelf Converter system as it is to install and use.

- Choose from a range of Easy-Order pre-configured units (pages 4-6).
- Or, configure your own unit to exactly suit your specific needs.
- Installation is as simple as attaching frame system, installing a pair of tracks for each drawer, and sliding the drawers into place.

A variety of the most versatile and popular configurations have been pre-designed so you can order

an entire unit with just one part number, shown on pages 4-6.

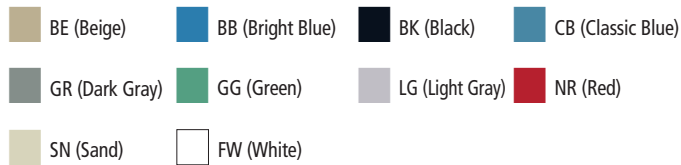

These units include not only the

frame system and a full complement of drawers, but all drawers come with interior sets featuring easily-installed drawer compartments.

Choose from ten standard colors

Shelf Converter drawer fronts are available in your choice of ten standard colors. Front frame components are painted in the same color as your drawer choice. Drawer interiors and partitions are electrocoated with a highly uniform, durable finish in gray.

Custom configure a Shelf Converter® system

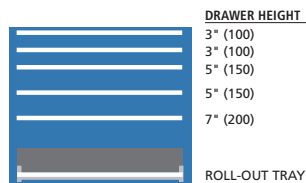

If you want a Shelf Converter unit that doesn't match one of our Easy-Order combinations, you can build a system that exactly fits your own specific needs.

Choose frame system for the size unit you want to build, then order drawers to fill the unit. **The total drawer model numbers must add up to the model number of the frame system. For roll-out trays, allow a height of at least 100.** Drawers have a 440 lb. (200kg) capacity.

EXAMPLE:

When using HS0900SC frame system.

- (2) HS100F drawers = 200
- (2) HS150F drawers = 300
- (1) HS200F drawer = 200
- (1) HS-TCF tray = 200
- 900**

How to order

1. Select kit.

2. ■ Select shelving brand.*

- 05 = Metalware
- 08 = Penco Clipper
- 30 = Rousseau Spider
- 43 = Tennsco Q-Line
- 24 = Western Pacific Deluxe

*Call your Lista representative for other shelving brands.

3. ■ Select paint color. See color chart to left.

EXAMPLE: to order MS1200SC Shelf Converter system for Tennsco Q-Line shelving in Bright Blue paint, the part number would be **MS1200SC-43-BB**.

Shelf Converter Drawers

Drawers shown below do not include pre-configured drawer interior sets.

Easy-Order Preconfigured Shelf Converter® Systems – 18" and 24"

How to order

1. Select Easy-Order Unit. Includes drawer interior sets (designated by an "A" at the end of the part number – i.e., ES0450SC-0401A). For drawer interior set information, see charts at the bottom of page 5.

To order without interior set, omit "A" from part number.

2. Select shelving brand.*

- 05** = Metalware
- 08** = Penco Clipper
- 30** = Rousseau Spider
- 43** = Tennsco Q-Line
- 24** = Western Pacific Deluxe

*Call your Lista representative for other shelving brands.

3. Select paint color. For color chart, see page 5.

EXAMPLE: to order an ES0450SC-0401A Shelf Converter unit for Tennsco Q-Line shelving without drawer interior sets, in Bright Blue paint, the part number would be **ES0450SC-0401-43-BB**.

Easy-Order Preconfigured Shelf Converter® Systems – 48"

How to order

1. Select Easy-Order Unit. Includes drawer interior sets (designated by an "A" at the end of the part number – i.e., ES0450SC-0401A). For drawer interior set information, see charts at the bottom of page 5.

To order without interior set, omit "A" from part number.

2. Select shelving brand.*

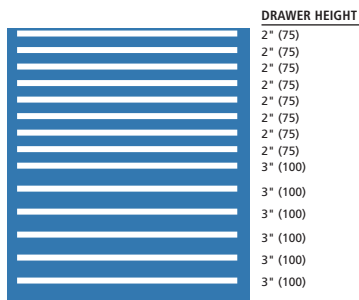

- 05** = Metalware
- 08** = Penco Clipper
- 30** = Rousseau Spider
- 43** = Tennsco Q-Line
- 24** = Western Pacific Deluxe

*Call your Lista representative for other shelving brands.

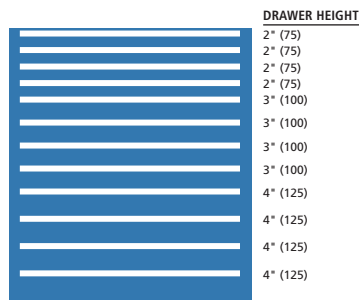

3. Select paint color. For color chart, see page 5.

EXAMPLE: to order an ES0450SC-0401A Shelf Converter unit for Tennsco Q-Line shelving without drawer interior sets, in Bright Blue paint, the part number would be **ES0450SC-0401-43-BB**.

How to order an Easy-Order Drawer Interior Set

To order the drawer interior sets shown on this page when you are ordering a Shelf Converter unit without drawer interior sets, use the part number in the chart and add the drawer height in place of the green box.

EXAMPLE: to order an ESDR621 drawer interior set for a 100 height (3") drawer, the part ordering number would be **ESDR621-100**.
