

LISTA PAINT COLOR GUIDE

Lista products feature a uniform, attractive, durable, high-quality powder coat finish. Our powder coat application process ensures complete, even coverage and a smooth surface. The powder coating process is environmentally friendly and virtually pollution-free.

- *Lista drawer interiors and accessories are electrocoated with a highly uniform, durable finish, available in gray only.*
- *We've done our best to represent our colors accurately, but the color calibration of computer monitors and color printers varies considerably. If color accuracy or matching is key to your decision, request a standard paint color guide by e-mail, or contact our customer service department at 800-722-3020 to request a paint color chip.*
- *Additional custom colors are available and will be quoted on request.*
